## ARABINOGALACTAN POWDER

- **Arabinogalactan Powder** is a Larch Tree Extract formula to support the immune system and colon health of cats and dogs.
- Arabinogalactans are long, densely branched, water-soluble polysaccharides or fibers that occur naturally in most plant cell walls. Larch Tree Extract provides 98% Arabinogalactans.
- Arabinogalactans have been shown to support long-term colon health. Arabinogalactan powder supports colon health by acting as a fermentable fiber to support the growth of probiotic bacteria such as Lactobacillus and Bifidobacteria in the colon and contribute to healthy microflora levels which is important for G.I. tract health.
- Larch Tree Arabinogalactans support the immune system by increasing the number of circulating immune cells supporting natural killer cell and macrophage activation, and limiting unhealthy cell replication. Arabinogalactans block invading bacteria and viruses from attaching to cell membranes in the liver and other organs.
- **Arabinogalactan Powder** supports the immune system which is a very important part of staying healthy, avoiding serious illness, and fighting off exposure to foreign invaders such as viruses, bacteria, and parasites. Arabinogalactan Powder can support the body's defense against free radicals that are produced in the body due to stress, pollutants, toxins, and from normal cellular processes.
- Palatable, easy to administer powder.
- **Directions For Use:**  
**Cats (all):** 1/3 scoop daily.  
**Dogs:**  
Under 25 lbs: 2/3 scoop daily.  
25 - 50 lbs: 1 scoop daily.
