CARDIO-STRENGTH FOR CATS AND DOGS

- A formula for cats and dogs designed to support cardiovascular health and function.
- **Cardio-Strength** combines the synergistic effects of 11 ingredients that are vital for elderly animals. Recommended to support cardiovascular and circulatory health.
- **Recommended for:**
 - ☐ Animals with pre-existing sub-optimal cardiovascular functions
 - ☐ Breeds of dogs and cats that are predisposed to cardiovascular stress
 - ☐ Support of geriatric patients
- **Cardio-Strength** is designed to support heart muscles, reduce oxidative stress, and support cardiovascular functions. It also contains ingredients to support circulation and better utilization of oxygen.
- **Combines the heart health benefits of:**
 - ☐ L-Taurine supports regular heartbeat, minimizes the loss of potassium, supports proper use of electrolytes, provides antioxidant support and helps to support the immune system.
 - ☐ L-Carnitine supports the use of fat for energy and oxygen utilization. It supports fat metabolism, which helps balance cholesterol and triglycerides levels and supports the heart's energy levels.
 - ☐ N,N-Dimethylglycine (DMG) supports circulation and acts as an antioxidant.
 - ☐ Vitamin E to support circulation, strengthen the immune system, and the heart muscle. Vitamin E is in the d-alpha Tocopherol form and helps support tissue repair, normal blood clotting, blood pressure, strengthens capillary walls and is a powerful antioxidant.
 - ☐ Coenzyme Q10 supports oxygenation of heart tissue, and helps protect against oxidation. Coenzyme Q10 helps strengthen the heart muscle and is a lipid soluble antioxidant.
 - ☐ Eicosapentaenoic Acid (EPA an omega 3 fatty acid) and Gamma Linolenic Acid (GLA an omega 6 fatty acid) support circulation and blood flow.
 - ☐ Folate is needed for the formation of red blood cells and helps increase capillary blood flow.
 - ☐ Magnesium supports proper functioning of the cardiac muscle. It helps to maintain the integrity of blood vessel walls, normal blood viscosity (thickness), and a strong normal heartbeat. Magnesium helps regulate electrical activity for the heart.
 - ☐ Potassium is needed for electrolyte balance. Electrolyte balance is important for heart rhythm and blood pressure.
 - ☐ Selenium provides antioxidant support within the heart muscle. It is a component of glutathione peroxidase and works synergistically with Vitamin E to maintain a healthy heart.
- **Directions For Use:**
Cats: Give 1 capsule daily.
Dogs: Give 1 capsule, per 25 lbs body weight, daily.
 If giving more than 1 capsule, divide between AM and PM.
- **Cardio-Strength**
 0900631.030 (30 Capsules for Cats & Small Dogs)
 0900631.060 (60 Capsules for Dogs)
 0900631.090 (90 Capsules for large Dogs or multi-animal households)

CARDIO-STRENGTH FOR CATS AND DOGS

Active Ingredients Per Capsule:

L-Carnitine HCl	250 mg
L-Taurine	250 mg
N,N-Dimethylglycine HCl	50 mg
d-alpha Tocopheryl Succinate (Vitamin E)	30 IU
Eicosapentaenoic Acid (EPA) Powder Blend	25 mg
Coenzyme Q10	20 mg
Gamma Linolenic Acid (GLA) Powder Blend	10 mg
Folic Acid	0.9 mg
Magnesium (as Magnesium Citrate/Malate)	0.5 mg
Potassium (as Potassium Citrate/Malate)	0.1 mg
Selenium (as Sodium Selenite)	0.007 mg

Inactive Ingredients: rice flour, vegetable cellulose, vegetable stearate.
