COMPOSURE

- **A calming support formula recommended for pets exposed to increased environmental stressors.**
- When pets can't adapt to stress it can lead to anxiety, nervousness, hyperactivity, frayed nerves, excess barking, abnormal urine marking, excessive scratching, trembling or shivering, and destructive or aggressive behavior.
- **Recommended for:**
 - ☐ Changes to environment
 - ☐ Boarding or holidays
 - ☐ Moving or traveling
 - ☐ Company or parties
 - ☐ Boredom or separation anxiety
 - ☐ Fireworks and thunderstorms
 - ☐ Veterinary or grooming visits
- **Composure** for Cats and Dogs helps alleviate stress related behavior problems without affecting your animal's personality or energy level. It can be used daily or when extra help to relax is needed.
- It contains a combination of factors not found in other calming formulas such as C³™ (Colostrum Calming Complex), L-Theanine, Thiamine (Vitamin B1), which all address stress and calming.

About the Formula:

- **C³™ (Colostrum Calming Complex)** is known for its calming effects, and it works synergistically with the L-theanine in this formula.
- **L-Theanine** supports calming and relaxation, reduces irritability and low mood states. L-Theanine has been extensively researched for its ability to reduce stress, anxiety and unwanted behavior. L-Theanine is a naturally occurring amino acid found in green tea that is a derivative of glutamic acid; a neurotransmitter in the brain. It helps the body to produce other calming amino acids such as dopamine, GABA and Tryptophan and helps bring certain neurotransmitters into better balance. Studies done on L-Theanine showed that dogs reduced anxiety-related behavior without adverse effect, or drowsiness; dogs were alert, playful, and calmer than expected, given their situations.
- **Thiamine** helps manage stress and reduces irritability. Thiamine (Vitamin B1) has been shown to affect the central nervous system to help calm and soothe anxious animals. A lack of Thiamine can cause mental confusion, muscular weakness, muscle spasms, nervousness, and weight and appetite loss during periods of stress.
- **Composure** for Cats and Dogs does not contain any herbal ingredients (Kava Kava, Valerian, St. John's Wort, etc.) or L-Tryptophan. Its ingredients do not cause addiction, and drowsiness or impaired motor skills.
- **Directions For Use:** Shake well before use.
Cats: 1/4 teaspoon twice daily.
Dogs:
Under 25 lbs: 1/4 teaspoon twice daily.
26 - 49 lbs: 1/2 teaspoon twice daily.
50 - 75 lbs: 3/4 teaspoon twice daily.
76 lbs and over: 1 teaspoon twice daily.

During Times of Increased Stress: It is safe to double or triple the above amount, as needed.

This product can be used either as needed for immediate support or on a daily basis for ongoing support.
