

FAST BALANCE G.I. FOR CATS, DOGS AND HORSES

- A fast acting easy to administer paste that provides immediate G.I. support for cats, dogs and horses.
- **Fast Balance G.I.** contains a specialized yeast extract rich in mannan oligosaccharides derived from the cell wall of yeast (from *Saccharomyces cerevisiae* and brewers dried yeast), probiotics (including: *Bacillus subtilis*, mixed lactic acid bacteria, *Enterococcus faecium*), fungal derived enzymes from *Aspergillus oryzae*, and B Vitamins which work together as a fast-acting product to normalize the G.I. tract.
- **Recommended for:**
 - ☐ G.I. health issues
 - ☐ Garbage gut, nervous gut, and food sensitivities
 - ☐ Older pets who need greater digestive support
 - ☐ Stress (acute or chronic)
 - ☐ Quickly normalizing digestion
 - ☐ Balanced microflora levels-supports naturally occurring beneficial flora and supports the probiotics in the formula
 - ☐ G.I. tract integrity support
- Most animals respond within 24 hours which makes it an “immediate care” product for G.I. tract problems while awaiting lab results!
- **Fast Balance G.I.** contains a specialized yeast extract that is rich in mannan oligosaccharides (MOS). MOS also supports immune system functions for optimal gut health. MOS provides more binding sites than FOS (Fructo Oligosaccharides).
- **Fast Balance G.I.** contains probiotics including beneficial microbes like: *Bacillus subtilis*, mixed lactic acid bacteria, *Enterococcus faecium* that helps maintain balanced microflora levels in the gut. They also encourage the growth of helpful bacteria and help maintain proper water level in the gut.
- Vitamins work synergistically with the probiotics to support the growth of the naturally occurring beneficial microbial population in the animal’s gut. This causes a quicker response and helps to reduce stress on the G.I. mucosa. Riboflavin (Vitamin B2) supports normal gut health; Pyridoxine hydrochloride (Vitamin B6) for proper immune function.

• Notched Dial-A-Serving Tube for easy dispensing!

• **Directions For Use:**

Dogs and cats: Administer orally at recommended servings listed below until results occur.

| Body Weight | Serving | Per Day |
|-----------------|---------|---------|
| Up to 10 lbs | 5 cc | 2 times |
| 11 to 20 lbs | 5 cc | 3 times |
| 21 to 30 lbs | 10 cc | 3 times |
| 31 to 50 lbs | 15 cc | 3 times |
| 51 lbs and over | 20 cc | 3 times |

Horses: Give entire contents of 60 cc tube 1 to 3 times daily when G.I. disturbance is present for up to 2 days or until results achieved.

• **Fast Balance G.I.**

- 0900470.015 (15 cc Calibrated Tube) (labeled for Cats and Dogs)
- 0900470.035 (35 cc Calibrated Tube) (labeled for Cats and Dogs)
- 0900470.060 (60 cc Calibrated Tube) (labeled for Cats and horses)

FAST BALANCE G.I. FOR CATS AND DOGS

Active Ingredients Per 10 cc:

| | |
|---------------------------------|---------------------------|
| Pantothenic Acid | 10.5 mg |
| Pyridoxine HCl (Vitamin B6) | 2.5 mg |
| Riboflavin (Vitamin B2) | 1.0 mg |
| Mixed Lactic Acid Bacteria | 1.3 x 10 ⁷ CFU |
| <i>Saccharomyces cerevisiae</i> | 3.4 x 10 ⁶ CFU |
| <i>Bacillus Subtilis</i> | 3.8 x 10 ⁵ CFU |
| <i>Aspergillus oryzae</i> | 1.3 x 10 ⁵ CFU |

Inactive Ingredients: carrageenan, d-calcium pantothenate, dried apple pectin pulp, dried *Aspergillus niger* fermentation extract, dried *Aspergillus oryzae* fermentation extract, dried *Bacillus subtilis* fermentation extract, dried *Enterococcus faecium* fermentation product, dried *Lactobacillus acidophilus* fermentation product, dried *Lactobacillus casei* fermentation product, dried *Lactobacillus plantarum* fermentation product, mucilage, polysorbate-80, primary yeast dehydrated, silicon dioxide, vegetable oil, yeast extract, yeast fermentation solubles.
