G.I. CONDITIONER

- **G.I. Conditioner** is a Source of Direct Fed Microbials, Mannan Oligosaccharides (MOS) and Gut Conditioners for All Classes of Horses.
- Supports optimal weight management and peak condition during times of stress.
- Useful in foals to establish normal gut activity.
- **G.I. Conditioner is recommended for:**
 - Maintaining G.I. tract health and integrity on a daily basis.
 - Better utilization of nutrients within the animal's feed.
 - Managing gut stress associated with changes in feed, environment, routine or nervousness.
 - Old age (faulty digestion, absorption and metabolism).
 - Pre & post-surgical support.
- **G.I. Conditioner** contains Mannan Oligosaccharides or MOS, a special type of polysaccharide that offers binding sites to sugar seeking-pathogens. This prevents them from binding to the gut wall and colonizing in the G.I. tract.
- Direct-fed microbials (Bacillus subtilis, Mixed Lactic Acid Bacteria) are included because they encourage the growth of helpful bacteria and quickly re-establish microbial balance.
- The inclusion of essential enzymes helps promote digestion and assimilation, supports healthy G.I. mucosa and the growth of healthy intestinal flora.
- Horses love the taste and you will love the ease!
- **Feeding Directions:**
Maintenance: 1 level scoop daily.
Low G.I. Stress: 1 1/2 scoops daily.
High G.I. Stress: 2 levels scoops daily.
- **G.I. Conditioner**
0900517.032 32 Servings (Net Wt. 1 lb)
0900517.096 96 Servings (Net Wt. 3 lbs)
0900517.192 192 Servings (Net Wt. 6 lbs)

G.I. CONDITIONER

Guaranteed Analysis Represents Minimum Levels Per 14.2 g Scoop:

Aspergillus niger	2.50 x 10 ⁵ CFU
Aspergillus oryzae	7.70 x 10 ⁵ CFU
Bacillus subtilis	6.9 x 10 ⁶ CFU
Saccharomyces cerevisiae	6.9 x 10 ⁶ CFU
Mixed Lactic Acid Bacteria (L. casei, E. faecium, L. plantarum, L. acidophilus)	2.7 x 10 ⁷ CFU

Inactive Ingredients: yeast extract, primary yeast dehydrated, extruded soybeans, hydrated sodium calcium aluminosilicate, dried Lactobacillus acidophilus fermentation product, dried Enterococcus faecium fermentation product, dried Lactobacillus casei fermentation product, dried Lactobacillus plantarum fermentation product, dried Aspergillus niger fermentation extract, dried Aspergillus oryzae fermentation extract, dried Bacillus subtilis fermentation extract, yeast fermentation solubles, anethole, anise and fenugreek (as flavorings).
