

## GLYCO-FLEX® FOR HUMANS & GLYCO-FLEX® II FOR HUMANS

- Two dietary formulas to support proper joint and connective tissue functions.\*

- **Glyco-Flex® For Humans** is a *Perna Canaliculus* (New Zealand Green-Lipped Mussel) formula that provides key building blocks to support the structural integrity and maintenance of joints, ligaments and tendons.\*

- **Glyco-Flex® II For Humans** is a high-potency advanced joint and connective tissue formula that can be used as an alternative or in conjunction with other joint health programs.\* It combines the powerful benefits of Perna, Glucosamine, Methylsulfonylmethane (MSM), Dimethylglycine (DMG), and Manganese for a quicker response than would be seen if any nutrient was taken singularly.\*

### About the Nutrients

- **Perna Canaliculus** is an edible species of shellfish from New Zealand. It is rich in amino acids, polypeptides, naturally chelated minerals, fatty acids, vitamins and all classes of glycosaminoglycans including chondroitin sulfates and hyaluronic acid that occur in connective tissues such as joint cartilage, tendons, ligaments and synovial fluid. The naturally occurring components in Perna support joint lubrication and flexibility, and reduce joint discomfort\*.
- **Glucosamine** is a fast acting nutritional building block for connective tissue. It is necessary for the production of hyaluronic acid and chondroitin sulfates which support joint comfort and mobility.\*
- **MSM** is a source of sulfur which the body needs in abundance for making collagen. It has been used historically to support joint comfort and circulation.\*
- **DMG** is a patented versatile metabolic enhancer. It supports joint health through immune system modulation, circulation, oxygen utilization, and antioxidant protection.\*
- **Manganese** is an essential mineral necessary for the production of collagen, proteoglycans, and glycosaminoglycans in the joints.\*

- **Supplement Facts**

- **Glyco-Flex® For Humans**

- 2 Capsules Contain:

Perna Canaliculus (Green Lipped Mussel)	1000 mg
Alfalfa Leaf	200 mg
Cinnamon Oil	2 mg

- **Other ingredients:** gelatin.

- **Glyco-Flex® II For Humans**

- 2 Tablets Contain:

Manganese (Mn. Amino Acid Chelate)	10 mg
Perna Canaliculus (Green Lipped Mussel)	1000 mg
Glucosamine Sulfate (from Shrimp and Crab)	600 mg
Methylsulfonylmethane	400 mg
Dimethylglycine HCl	200 mg

- **Other ingredients:** microcrystalline cellulose, stearic acid, vegetable stearate, sodium carboxymethylcellulose, silicon dioxide, cinnamon oil, polyethylene glycol, methylcellulose, titanium dioxide.

- **Glyco-Flex® II For Humans contains:** Crustacean shellfish (shrimp and crab) and soy.

- Glyco-Flex® For Humans products contain Green Lipped Mussel (a shellfish).

- **Warning:** If you are pregnant or nursing, consult your health care practitioner before taking this or any nutritional product.

- **Suggested Use:**

- **Glyco-Flex® For Humans:** As a dietary supplement, take 2 capsules, 3 times daily with each meal until results occur, then reduce to 1 capsule with meals, 3 times daily or as directed by your health care practitioner. **Glyco-Flex® II For Humans:** As a dietary supplement, take 2 tablets, 3 times daily with food for 2 to 4 weeks, then reduce to 2 tablets once or twice daily with food or as directed by your health care practitioner.

- **Product Information:**

- **Glyco-Flex® For Humans**

- 0900364.090 (90 Capsules)
  - 0900364.180 (180 Capsules)

- **Glyco-Flex® II For Humans**

- 0900365.090 (90 Tablets)
  - 0900365.180 (180 Tablets)
