UT STRENGTH STAT FOR CATS & UT STRENGTH STAT FOR DOGS

- Support proper urinary tract health in cats and dogs.
- **UT Strength STAT** helps to maintain proper urinary tract function, may reduce the likelihood of crystal and stone formation, and support immune system function. This superior combination of ingredients works together to provide pH balance and to support proper kidney, bladder and urinary tract function.
- Marshmallow Root (*Althaea officinalis*) & Corn Silk contain polysaccharides that can help support optimal bladder and UT function. Cranberry and Vitamin C (Ascorbic Acid) act synergistically to acidify the urine which helps dissolve stones.
- Chanca Piedra (*Phyllanthus niruri*) helps support the break up of kidney and bladder stones.
- L-Methionine is an essential amino acid that supports kidney function, SAME production, healthy liver function, and acidifies the urine. *Lactobacillus acidophilus* balances gut flora and intestinal pH.
- Olive Leaf Extract and Uva Ursi helps support urinary tract health. They help maintain kidney function and have a drying effect on tissues and reduce stone formation.
- **UT Strength STAT for Cats** is a palatable fish flavored chewable tablet and **UT Strength STAT** is a highly palatable smoke flavored tablet.
- **Directions For Use:**
UT Strength STAT for Cats: Give 2 tablets daily. Daily amount may be divided between AM & PM.
UT Strength STAT for Dogs: Give 1 tablet daily per 25 lbs of body weight. For dogs less than 15 lbs, give 1/2 tablet daily. If giving more than 1 tablet daily, divide amount between AM & PM.
- **UT Strength STAT for Cats**
0900504.060 (60 Fish Flavored Chewable Tablets)
- **UT Strength STAT for Dogs**
0900505.045 (45 Smoke Flavored Chewable Tablets)
0900505.090 (90 Smoke Flavored Chewable Tablets)

Cautions:

Safe use in pregnant animals or animals intended for breeding has not been proven. If animal condition worsens or does not improve, stop product administration and consult your veterinarian.

May have hypoglycemic effect. Not for long term use. Contraindicated with kidney disorders, animals with, or prone to oxalate stones, or conditions given rise to acidic urine. Use caution with hypertension; not to be used with hypotensive drugs or prior to anesthesia. Absorption of drugs taken simultaneously may be delayed.
