

GLYCOFLEX®

STAGE 3 Ultimate Strength

» Perna, Glucosamine, MSM, DMG, and antioxidants for advanced joint support in canines.

GlycoFlex® 3 Canine represents Stage 3 of our comprehensive stage of life program for dogs needing maximum joint support. It's also recommended by veterinarians for geriatric and working dogs as well as a follow-up to support normal recovery after orthopedic surgery.

GlycOmega™ is *Perna canaliculus* from an exclusive New Zealand source. Unlike Perna extract-based products and mussel powders that may lack important fatty acids and other bioactive components (e.g. defatted powders or extracts), the entire organism is utilized in **GlycoFlex®**. Only **GlycoFlex®** products are formulated with GlycOmega™ Perna.

GlycoFlex® chewable tablets come in a roast chicken flavor that is highly palatable for easier delivery.

PRODUCT DETAILS:

GlycoFlex® 3 represents Stage 3 of our comprehensive stage of life program for dogs needing advanced joint support. These delicious natural imitation roast chicken flavored chewable tablets are recommended by veterinarians for dogs with a maximum need for joint and connective tissue support, geriatric and working dogs as well as to support normal recovery after orthopedic surgery.
